Technical Skills

Frontend development: ReactJs, Redux, TailwindCSS, HTML, CSS

Backend development: NodeJs, ExpressJs

Database: MySql, MongoDB

Certifications: Microsoft certified: AZ 900 azure fundamentals

Others: Git, Github, Postman, Visual studio code

Experience

Cognizant Technology Solutions

Software Engineer

Jan 2024 – Present

- Successfully migrated the AWS SDK from version 2 to version 3, enhancing performance and reducing technical debt, leading to a more efficient and maintainable codebase.
- Identified and resolved critical software bugs, enhancing overall application stability and performance, which reduced downtime.
- Developed and implemented key features that significantly enhanced the user experience, resulting in a increase in user retention and positive feedback.

Cognizant Technology Solutions

Junior Software Engineer

Oct 2021 – Jan 2024

- Optimizing system performance, and collaboration with cross-functional teams to implement efficient solutions.
- Proactively addressed and resolved production defects, fortifying system robustness and stability for enhanced reliability.
- Orchestrated a seamless migration of the MongoDB database, achieving an extraordinary 88% reduction in process time—from 13.5 hours to an impressive 1.5 hours
- Implemented a few automated solutions utilizing Node.js and Express.js that empowered users to resolve their issues independently through a user-friendly portal, eliminating the need to visit customer service and significantly reducing resolution time.

Projects

Vendor Portal:

Facilitated efficient vendor management and product listing for an online pet store

- Built using Node.js and Express for the backend, Angular.js for the frontend, and integrated with PostgreSQL and MongoDB for data management. Leveraged AWS services including S3 for file storage, CloudWatch for monitoring, and AWS SDK for various functionalities.
- Contributed to the development and maintenance of a Vendor Portal for an online pet store, facilitating vendor registration, product management, and sales with features for price negotiation and transaction records.

Investment Manager:

A banking and finance platform, enabling operations like fund purchases, switching, and redemption.

- Developed with Node.js and Express for the backend, React.js for the frontend, and integrated with MySQL and MongoDB for data management.
- UContributed to the maintenance and enhancement of a banking and finance platform. Developed new features to improve user experience, enabling functionalities like purchasing mutual funds, switching, and redemption operations.

Education

Moradabad Institute of Technology

Bachelor of Technology in Computer Science

2017- 2021

Moradabad,Uttar-Pradesh
